D	Insignificant/detrimental	good fair poor bad

Notable features:

Condition is poor but may become habitable once Mulberry Street is a service road only. The houses have good proportions, some nice details and could be serviceable residences again. Number 1013 is a particularly handsome house with very tall windows; 1005-1011 retain their original doorways. Numbers 1011-1015 have very deep lots, 125 feet.

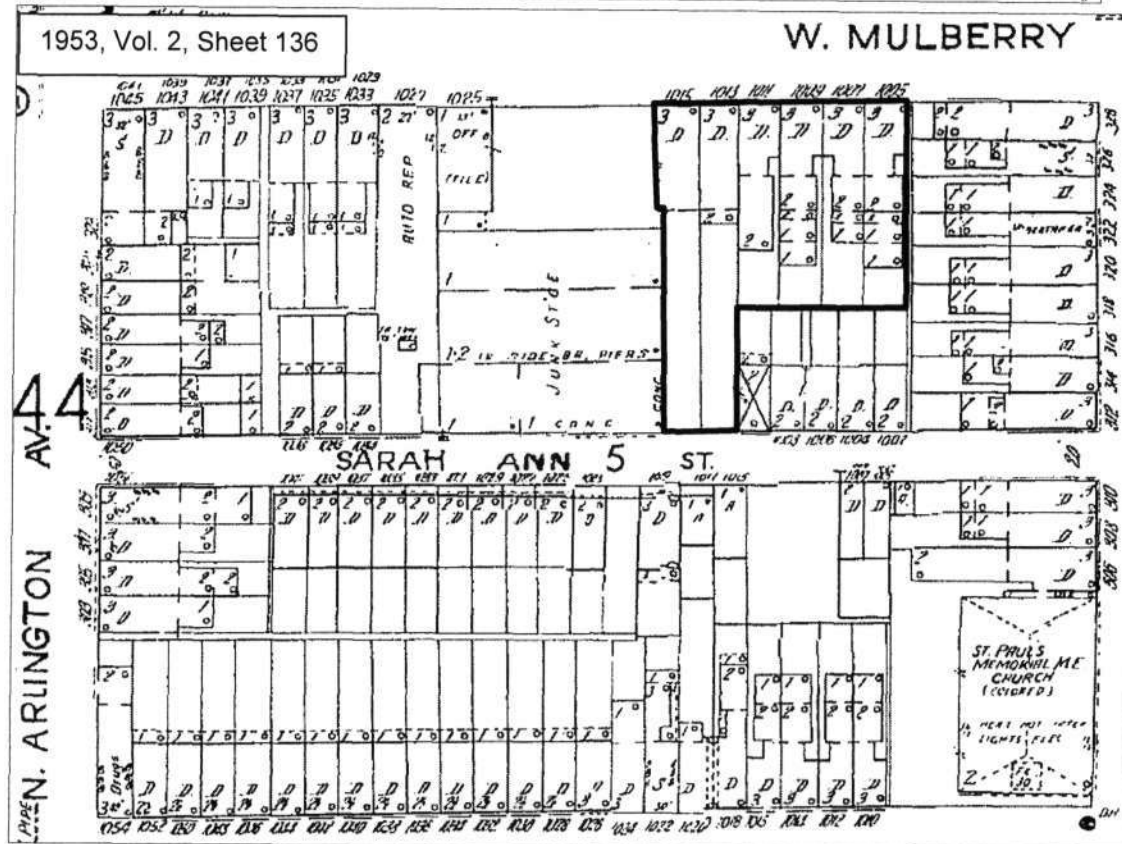

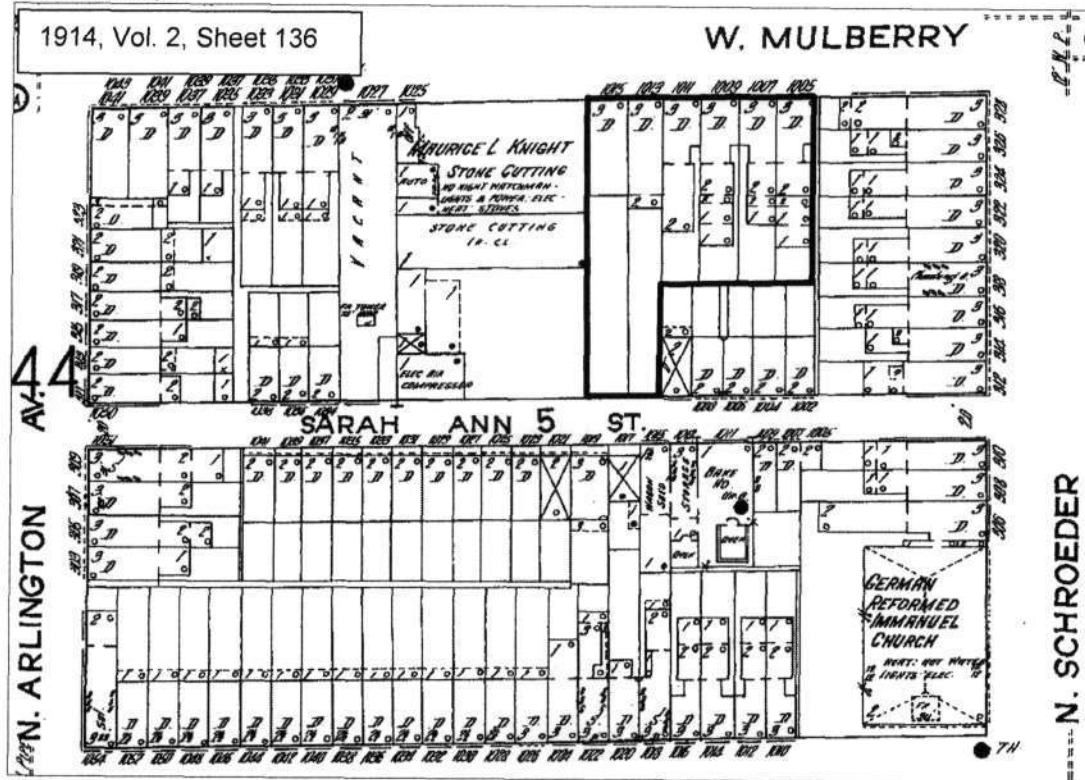

Environmental context: Number 1011 is vacant and lot 7 (at 1025) is a large open space. The expressway is being constructed across-street. Mulberry Street will become a local service street presumably allowing parking and modifications such as wider sidewalks and street trees. The space between the expressway retaining wall and Mulberry Street should be slanted as heavily as possible with a mix of evergreen and deciduous trees designed to buffer the noise.
